PROFILE

Former Project Manager gone Software Developer with a background in Linguistics, on the lookout for a job where I could blend my creativity with my new programming skills and keep building upon them. Through nearly three years' experience managing projects, I acquired strong communication, time-management and organising skills along with a passion for learning new things every day and seeing projects through to completion.

TECHNICAL TRAINING

CodeClan | Glasgow, Scotland
Dec 2020 (pre-coursework & relocation)
Jan 2021 - Apr 2021

CodeClan is an intensive 16-weeks Bootcamp involving over 800 hours worth of hands on coding through solo and team projects, code-alongs and practical instructor lead lessons during which I was taught up to date best practises and fundamentals of Professional Software Developement.

PROJECTS

Group project | Farkle | Dice Game App

Mar 2021, built in 5 days
[deployed link placeholder]

Created a full-stack browser game version of the gambling dice game Farkle (aka Hot Dice aka 10000) along with a leaderboard rendering players and their stats, and sorted by best scores.

Built in JavaScript with React, Express, MongoDB

Solo project | Glasgow Bucket

Feb 2021, built in 5 days
[deployed link placeholder]

A bucket list app of all things to see and do in Glasgow and for users to be able to keep track of their progress as they discover the city. Places can be filtered by area, budget or whether they are lockdown-friendly or not.

Built in Python with Flask, Jinja, PostgreSQL

MA Intercultural Communication, Distinction

EMPLOYMENT HISTORY

Project Manager at VSI (Voice & Script International), London
Apr 2018 - Nov 2020

Responsible for the planning and delivery of a range of diverse multilingual dubbing, subtitling, voice-over and graphics projects for mainstream TV channels, broadcasters, film companies and VOD platforms worldwide.

My responsibilities included:
- Taking enquiries and providing quotes to clients.
- Drawing up project specifications.
- Sourcing suppliers and negotiating rates.
- Monitoring budgets and addressing financial issues.
- Managing, analysing, and updating workflows to ensure projects were completed on a timely basis, within budget and to a high-quality standard at all times.
- Streamlining processes to improve efficiencies.
- Taking a lead on client and supplier management, maintaining strong communication channels.

French Tutor for the Ealing School of Languages, London
Jan 2018 - Jun 2019

Three evenings a week, I would teach groups of up to fifteen students my native tongue. I was in charge of drawing up the curriculum, preparing and delivering engaging lessons as well as ensuring each student was feeling supported and given the tools to progress to the next compentency level.

Data Collection Agent at Measuremen, London
October 2017 - March 2018

In this workplace intelligence solutions company, I strived to find the best workplace strategy for each client. My responsibilities consisted of recording companies' occupancy to create the most efficient working environment.

Team Lead at The Three Tuns, Sheffield
October 2015 – December 2016

During my studies, I worked in a local Sheffield pub, earned the management trust and was quickly promoted to shift manager thanks to my reliability and business flair. I supervised the work of the team and ensured we always maintained a high-quality service.
